### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

Please, replace the **abstract** with the following:

"A process for fabricating active and passive, polymer-based components for use in integrated optics. As a result of this process, active and passive optoelectronic components of a high quality having a high level of integration and high packing density are fabricated. A patternable polymer resist layer of a high quality is deposited onto an optoelectronic component. An etching mask is used in conjunction with a high-grade anisotropic deep etching to produce a pattern, which is filled with monomers through gas-phase or liquid-phase diffusion. The optical properties of the optical component can be selectively changed as a function of the type of monomers used for the diffusion, as well as of the temperature and application time. The process makes it possible to increase the packing density of future integrated monomode optics and simultaneously produce large quantities in a cost-effective manner."

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed on 10/4/06 (specifically, pages 2-4) is persuasive as to the point that cited prior art fails to teach a process of fabricating an active and passive polymer-based components for use in integrated optics including the step of filling the unexposed regions of the at least one patternable resist layer with organometallic compounds as the context of claim 7.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shamim Ahmed whose telephone number is (571) 272-1457. The examiner can normally be reached on M-Thu (7:00-5:30) Every Friday Off.
